

**SCHEDULE 84
LARGE NONRESIDENTIAL
LARGE LOAD SPLIT SERVICE RIDER OPTION**

PURPOSE

The Large Load Split Service Rider Option allows a Customer to receive Direct Access Service for a percentage of its usage, while the remainder is served on the Cost of Service option.

APPLICABILITY

To Large Nonresidential Customers served on Schedule 85 or Schedule 89 that demonstrate the following:

(C)

- 1) Usage in the most recent 12 months or, projected annual usage or where 12 months of usage history is not available, of at least 87,600,000 kWh (10 MWh) from one or more participating Points of Delivery (PODs);
- 2) An election to maintain at least 10 MWh usage on this option;
- 3) A Facility Capacity of at least 250 kW at each participating POD; and
- 4) An average non-coincident monthly load factor for the aggregated PODs participating of at least 60%, determined by the Company based on the historical usage information.

DESCRIPTION OF SERVICE OPTION

A Customer receiving service under this rider must elect 10% to 50% of eligible load to be served on Direct Access Service. All remaining load will be served by the Company.

DIRECT ACCESS BLOCK

The Direct Access Block is a fixed kWh served on Direct Access Service.

The Customer will choose the percentage of load to be served on Direct Access Service. The Company will determine the Direct Access Block by multiplying that percentage by the Customer's annual historical kWh usage for all participating PODs with the result divided by 8,760 hours, subject to the following limits:

- A Direct Access Block will not result in more than 50% of the annual historical usage.
- A POD may not have more than five consecutive days (or 120 hours) where the Direct Access Block is greater than the historical usage. When this occurs, the percentage that determines the Direct Access Block will be reduced for all of the Customer's PODs.

The Direct Access Block will remain unchanged for the calendar year [which may be less than 12 months if an Electricity Service Supplier (ESS) does not make a timely submittal of the required Direct Access Service Requests (DASRs)].

SCHEDULE 84 (Continued)

COMPANY SERVED LOAD

The Company Served Load is the difference between the Direct Access Block and the metered interval load data for each POD by hour. If actual usage in an hour is less than the Direct Access Block, the Company supplied Energy is deemed to be zero for the hour.

DIRECT ACCESS SERVICE

The Customer must arrange for an ESS to provide Direct Access Service for the Direct Access Block. The ESS is responsible for enrolling each participating POD in Direct Access Service and meeting all requirements defined in Rule G for timely DASR submittals. Beginning on January 1st, all participating PODs will be billed at the Daily Price until Direct Access Service commences for the participating PODs.

MONTHLY RATE

The Monthly Rate is the sum of the following charges:

Energy Charge

For the Company Served Load, the Cost of Service Monthly Energy Charge for the appropriate Delivery Voltage under Schedule 85 or Schedule 89 as applicable will apply. (C)

The Customer's ESS will bill separately for Energy provided for the Direct Access Block.

Other Charges

The following charges will be applied to the Customer's total usage for each POD: The Basic Charge, Transmission and Related Services Charge, Distribution Charge, System Usage Charge, Reactive and other applicable charges except the Energy Charge and including supplemental adjustments applied to each POD's total Energy, Demand, Facility Capacity and Reactive Demand.

A credit will be applied to the Direct Access Block billing for Transmission and Related Services. The credit will be equal to the Schedules 85 or 89 Transmission and Related Services Charge applied to the Direct Access Block Demand. (C)

SCHEDULE 84 (Concluded)

ENROLLMENT

The Company will provide a list of eligible PODs to Customers by September 15th of each calendar year (or the following business day if the 15th falls on a weekend or holiday).

By 5:00 p.m. on the last business day of September, the Customer must provide written notification to the Company verifying the following:

- 1) The Customer's intent to elect the service under this Rider.
- 2) A list of the PODs the Customer intends to enroll under this service option during the November Election Window (as defined in Schedules 85 and 89).
- 3) The proposed percentage of load to be served on Direct Access Service. This designation will be used by the Company to determine the Direct Access Block.

(C)

By October 15th (or the following business day if the 15th falls on a weekend or holiday), the Company will confirm receipt of the election and the PODs the Customer intends to enroll. In order to receive service under this rider, the Customer must confirm enrollment during the November Election Window. After the Customer selection is confirmed during the November Election Window, the Company will provide the Customer with POD identification (PODID) numbers to be used by an ESS to enroll the Direct Access Block PODs in Direct Access. The Customer is responsible for furnishing this information to its selected ESS.

SET UP FEE

Customers notifying the Company of their intent to receive service under this rider will be charged a one-time non-refundable fee of \$70 per each designated POD. This fee will be due with the Customer's written notification in September for a service election in November and service the following January.

TERM

All of the Customer's enrolled PODs will remain on this option for the entire calendar year and must be reenrolled annually.
