

Portland General Electric

Choose **where your money goes**

Are you interested in purchasing renewable energy and receiving advertising and publicity for your support without paying more?

Public Purpose Charge (3%)

Your company currently pays 3% of your total electric bill to a public purpose fund which is directed to the Energy Trust of Oregon to fund energy efficiency projects.

This fee shows up as "Public Purpose Charge" on your PGE bill.

Schools & Low Income
27%

Renewable
17%

Conservation
56%

If you use more than 8.7 million kWh (one average megawatt) at your site during the year, you have the ability to "self-direct" 17.1 percent of this charge to renewable power.

Self direct (over
1 MWa) and
purchase PGE
Clean Wind

Energy Trust
of Oregon
Renewable
Program

You make the choice.

By self-directing your portion to purchase Clean Wind, you are deciding to support the type of renewable power that is important to you and your company will receive public recognition for your commitment to the environment.

Receive recognition for your leadership.

Depending on your level of support, Clean Wind provides significant publicity and advertising benefits such as:

- Social media
- Turnkey marketing tools you can use
- Inclusion in advertisements in publications such as Portland Business Journal and Portland Monthly

Since you are paying this money anyway, why not let your employees and customers know of your support for renewable energy?

Ready to get started?

1. Go to <http://lecppp.odoe.state.or.us/lecppp/login/entry.cfm>
2. Register your accounts
3. Contact your Key Customer Manager and we'll help you with the rest!

You do not have to buy Clean WindSM to continue to receive your current electricity service from Portland General Electric.
