

2017 Renewable Development Fund

The following projects have been selected for 2017 funding from the support of more than 150,000 PGE customers who purchase Green FutureSM renewable energy. We will share more details about each project as they progress. Thank you to all who applied.

72 Foster Apartments, Portland

This nonprofit organization plans to install 106.5 kW of solar generation.

Here Comes the Sun, Portland

This school plans to install 45.8 kW of solar generation.

Interstate Apartments, Portland

This nonprofit organization plans to install 26.565 kW of solar generation.

Orchards at Orenco III, Hillsboro

This nonprofit organization plans to install 51.975 kW of solar generation.

Redd East Solar, Portland

This nonprofit organization plans to install 101.5 kW of solar generation.

Rockwood Club Educational Effort, Gresham

This nonprofit organization received a 2016 RDF grant for a solar array. The 2017 grant will help train educators on how to incorporate renewable energy topics into their curriculum. The array and interactive kiosk will provide activities and displays for children to better understand renewable energy.
