

October 9, 2019

Dear Mr Gruener,

Thank you for taking time out of your day
to teach us new things and let us learn. Thank you
for inserting knowledge to our brains not just for
some zombies could eat all of it up but to let
us learn.

I learned a lot specifically not going near
fallen power lines that I feel like that was really
important. My entire family does a lot of yard
work so that other one where not going near
power lines with any metal object.

Sincerely

Reed

PGE volunteers often visit local schools to teach kids how to be safe around electricity. Here's a thank-you note to PGE retiree Bob Gruener from Capitol Hill Elementary School student Reed H.
