

Live Performances

These free, live performances from PGE provide schools with interactive education on electricity and electrical safety, renewable resources and using energy wisely.

Safety: Pedro's Path to Power (Grades K-3)

PGE has partnered with Oregon Children's Theatre to create this lively, interactive, bi-lingual musical that teaches students to make smart, safe, choices. Show runs 35 minutes. To schedule, call Oregon Children's Theatre at (503) 467-0550.

Safety: Hazard Hamlet (Grades 1-5)

This interactive presentation demonstrates electrical hazards around the home and neighborhood, complete with realistic effects. This 30-minute presentation is tailored to a classroom setting. Group size: single class. To schedule, email PGESafety4Kids@gmail.com.

Using energy wisely: Energy to Share (Grades 4-6)

Energy to Share is an entertaining, energetic show that features the attributes of electricity, where it comes from, how it travels to us, and how to use it wisely. "Scientists" in lab coats, high-energy music, and engaging activities inspire an interest in energy and science, making it a favorite educational experience. Length: 30 minutes. Group size: 100-200. To schedule, call Mad Science at 503-230-8040.

Using energy wisely and STEM: On the Grid (Grades 4-6)

This exciting, high-energy show, presented by Mad Science, is designed to inspire students to take charge of their future. Students will learn how the growing demand for electricity directly impacts them and the small steps they can take to conserve energy. Students will also learn about how STEM (science, technology, engineering and math) is driving forward the ever changing industry of power and electricity. Group size 75-200. To schedule, call Mad Science at 503-230-8040.
